Andrea Ianniello is an independent consultant with over 20 years experience in commercial and investment banking, brokerage and asset management. She advises senior executives in solving complex business problems with an emphasis on data management. Her consulting work has included business strategy, overall large scale change management, front, middle and back office processes, credit risk management, client profitability, technology and management reporting.

Prior to this role, Andrea was Associate Partner in IBM's Global Business Services organization focusing on the Financial Markets Industry. In that role, she helped Capital Markets and Asset Management firms solve their most complex technology and process issues leveraging IBM's business solutions.

Andrea has been a member of the Women's Bond Club since 2004 and has served as a member of the Board of Directors for the past 2 years. She currently the Vice President for the Women's Bond Club Executive Committee and co-chairs the Merit Award Dinner Committee. Andrea is also a thought-leader and industry contributor around Enterprise Data Management strategies and standards, with an emphasis on data governance.
